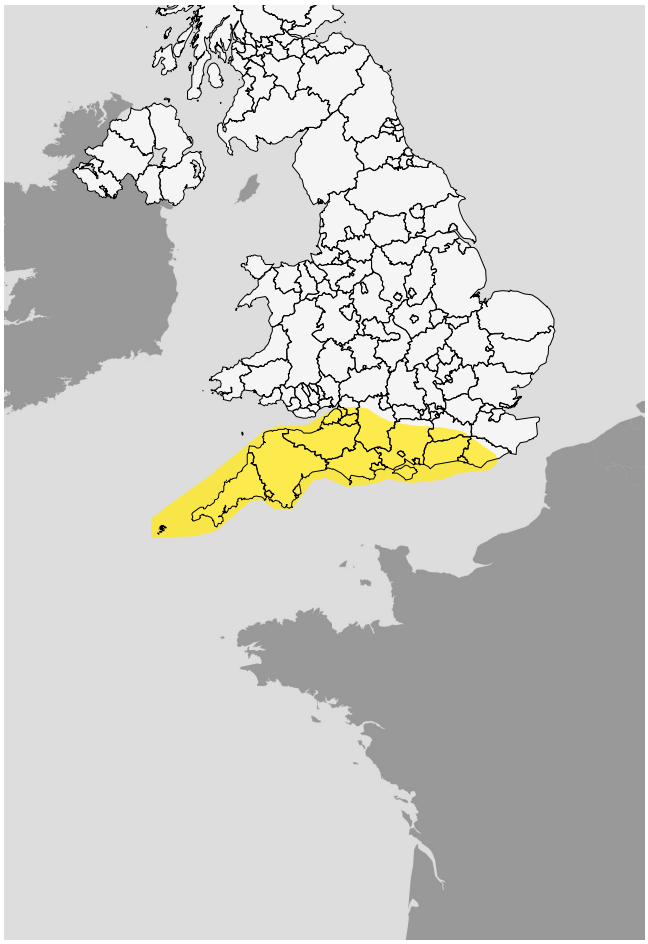
Yellow warning
Rain

Between
07:58 Mon 27 Jan 2025 and
10:00 Tue 28 Jan 2025



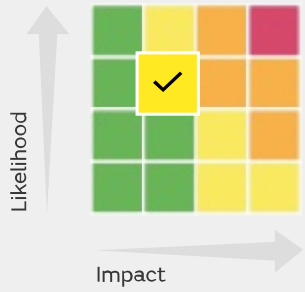
Heavy, blustery showers and possible thunderstorms, will lead to some flooding continuing to affect roads.

What to expect

- Spray and flooding on roads probably making journey times longer
- Bus and train services may be affected by longer journey times
- Some interruption to power supplies and other services may occur
- Flooding of a few homes and businesses is possible

Further details

The strong winds will drive in a succession of showers, some of them heavy, through Monday and Monday night, before slowly easing during Tuesday morning. With the ground so wet, these are likely to produce or sustain some flooding impacts, primarily affecting road travel. Additional hazards could include further lightning strikes, and hail making road conditions dangerous.



Medium likelihood of low impacts

Issued at 07:58 Mon 27 Jan, 2025

What Should I Do?

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: the Met Office recommends staying up to date with the weather forecast in your area.

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.
